

WINCHELSEA VETERINARY SERVICES

First Six Months

Winchelsea Veterinary Services will officially have been in operation for six months on October 15th, 2011. It has been a pleasure getting to know each of you and your animals, and we look forward to working with you into the future!

We would like to thank all of you for your support!

Tyler and Tipkamon

Dr Bettina Bobsien, always the teacher, mentoring my eldest daughter on the finer points of orally dosing a horse with medications. Galiano Island, Aug. 2011.

Website and Newsletters

I would like to encourage all of you to make use of the ['Book an Appointment'](#) page and request form on my website. Because of my family's rather hectic schedule, my availability for regular booked appointments varies considerably from one week to another. I will post my availability for regular appointments for the current month and for one month in advance online, but will make every effort to be available for emergencies.

I hope to produce two newsletters annually (fall and spring) to share updates, stories and veterinary-related information. Newsletters will be distributed by e-mail to any of my clients who would like receive it.

Featured Pet

"Timothy" Stitt was born late in 2010 on a hay bale in Errington. He and his 3 siblings were raised by hand, as their mom was MIA (missing in action) and feared dead when they were first found at less than a week old. Timothy joined our family when he was 3 months old, and settled in rather quickly. Of all the cats that I have ever lived with, Timothy is by far the most patient cat with young children, and the most social cat with people in general. Timothy's favorite past-time is ambushing our neighbour's German Shepherd, which was his focus when this picture was taken.

Mark Your Calendar!

October 31 - November 1: Dr Tyler Stitt will be in Delta, BC for 'Equine Infectious Diseases and Equine Emergency Care.' This course counts towards veterinary continuing education.

November 3 - November 29: the Stitt family will be out of the country visiting family. Emergency calls will be covered by Dr Doug Quesnel (250-954-9957) and Dr Colin Scruton (250-468-5340).

Suggestions?

Have a veterinary related topic you would like to see on my website? How about a great pet picture and story that you would like to share on our bi-annual newsletter? Suggestions and submissions can be e-mailed to:
